This partial index serves as a guide to many of the various names and subjects within the Chronological series (Volumes 1-220) and Undated series (Volumes 221-233) of the Henry Clinton papers. In addition to providing the dates of letters referring to particular subjects or people, the index also gives the volume numbers, and in some cases, the folio numbers. To locate the topics addressed within a particular volume, simply perform a search within the index for the phrase "Vol. ___". Whenever available, the index uses the Library of Congress authorized forms of names for the first instance in which the name appears. Geographic terms have been spelled out, rather than abbreviated. This index primarily concerns people, organizations and subjects mentioned within letters and documents. For information on the writers and recipients of letters, see the card catalog in the Reading Room.
